EXAMINER'S STATEMENT OF REASONS For ALLOWANCE

1. Claims 1-10 are allowed.
2. The rejection of claims 1-10 made in the previous Office action is withdrawn in view of the Terminal Disclaimer filed 06/28/2004.

3. The following is an examiner's statement of reasons for allowance:

The prior art of records fails to disclose or render obvious a system comprising a digital signal processing including three stages for processing digital signal wherein a first stage is used to compute a plurality of absolute difference, a second stage is used to sum the absolute difference into at least two intermediate values, and a third stage is used to accumulate each of the intermediate values to determine two sum of absolute differences values in parallel wherein the second stage is provided by reconfiguring a multiplier, as cited in an independent claim 1.

The closest found prior art is Abdallah et al. (U.S. 6,377,970). Abdallah et al. disclose a system comprising a single processing including a first stage for computing a plurality of absolute difference, a second stage for combining the absolute difference, and a third stage for accumulating the sum absolute differences. However, Abdallah et al. fail to disclose a two processing units in parallel and the second stage is provided by reconfiguring a multiplier.
